

Simple Ticker

View Scrolling Live Information

Show live data from almost any database.
View information from almost any Accounting, Warehouse, Human Resource (HR), Customer Relationship Management (CRM) and Time and Billing systems, etc.

Would you like to see Today's Sale? Yesterday's Sale? This Month's Sales? Late Orders? Total of Accounts Receivable? A/R Accounts over their Credit Limit? Inventory out of stock?

- You can now decide what you want to see. No need to run reports anymore, it's all on your screen.
- We even added security in order to prevent others from seeing your information.
- Very easy interface to program your Tickers.
- Uses known Technologies like ODBC drivers and SQL Queries.
- Supports Microsoft SQL, Microsoft Access, Pervasive, IBM DB2, Advantage, FoxPro, Dbase and others.

Predefined Templates

- for ACCPAC Advantage Series - for Simply Accounting
